Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants inquired about overcoming the utility rejection under 35 USC 101 tied to tissue specific expression. Applicants generally argued that tissue specific expression has a general utility when such expression is diagnosed or determined outside the lung. The examiner agreed to present the argument to a supervisor. Following presentation of the argument/case to a supervisor, a return phone message was left with Ms. Mueller explaining that the office policy regarding this matter was to uphold the utility rejection.
